Commercial Grade Controls

Laundry is all we do, and we do it better than anyone else in the world. For decades, we've been designing, building and testing controls the same way we do our machines: for unmatched, longer-lasting performance. Tested to endure through virtually every event that typically causes malfunction, Speed Queen controls are durably designed to last in the harshest commercial environments — and last even longer in your home. We're so confident in our controls that we back our electronic models with an industry-best warranty on all parts and in-home labor.
