

# DRYER COMPARISONS

Why invest in our electronic controls? Our electronic control panels are designed and manufactured to last 25 years and we back that up with rigorous testing to make sure our circuitry stands up to extreme moisture, temperature, vibration and power surges. They offer more features to care for your clothes and an industry-best 5-year warranty that you won't find anywhere else. So go ahead and push our buttons. You'll experience the quality, dependability and durability we build into every Speed Queen machine.

## DRYER CONTROL – MECHANICAL vs. ELECTRONIC
